Dear Ladies and Gentlemen,

Galerie Kornfeld is delighted to announce its ten year anniversary exhibition, which will feature the artists that have come along with us through the decade.

### Looking Back Ahead

***Exhibition on the 10th anniversary of Galerie Kornfeld in Berlin***

This summer at Galerie Kornfeld, past and present, present and future will only be a few steps apart. We are showing works by artists whom we've had the privilege of supporting on their creative journeys over the last 10 years. This support is the crucial task, challenge and fulfillment. Looking back ahead we found the idea for our tenth anniversary exhibition, where the artists' early pieces will enter into dialogue with their current work.

The anniversary exhibition will reveal touching glimpses of the past and the future, sensitive and exciting exchanges between first artistic attempts and more mature works. The works on show hint at inner struggle and transformation, the eternal search for what is hidden behind the visible. Perhaps our friends at the gallery will recognise, in one or two glances backwards and forwards, their own search for that which is only revealed to the artist through years of profound exploration.

Past and present, a long time apart - or just a moment?

We look forward to your media coverage and are happy to answer any questions you may have.

We are happy to arrange interviews with the artists.
